TO WHOM IT MAY CONCERN,

Hello, my name is Korey Hines. I am 25 years old and have a certificate in Full-Stack Web Development and I am interested in your open position. I am looking for a chance and opportunity to better display the skills I learned, such as React.js, CSS, MongoDB, and Node. I believe that the knowledge and experience that I have obtained while practicing these skills will prove invaluable.

The knowledge I have learned making React Apps, utilizing CSS libraries, and working with Databases would work well at your company, as I would fit into various roles and could be used to accomplish any tasks at hand. I have no problem jumping around and learning new languages as well, because I am aware that technology changes over time.

I would be extremely excited to bring my knowledge of Web Development to this company, and start a career. I truly believe in everything that this company is doing. Please feel free to contact me at dev.kthines@gmail.com or by phone at (209)-366-9363. Thank you for your time and consideration.

SINCERELY,

Korey Hines
